ABOUT ME

I am a highly motivated frontend developer with a strong foundation in HTML, CSS, and JavaScript. With a passion for continuous learning and self-improvement, I am dedicated to deepening my technical expertise and contributing meaningfully to innovative projects. My enthusiasm for web development drives me to build user-friendly, responsive, and visually appealing web experiences.

CERTIFICATES

PROJECTS

Ounje Spot

Online Food Ordering Website

A fictional website designed to showcase various local dishes and food combinations. Features include an interactive user interface, customer reviews, and a "Contact Us" section for placing orders.

Pathfinder

Faith-Based Reflection Platform

A web platform created to support spiritual growth among believers. It includes sections for reflective devotionals, prayers, and spiritual insights

UniGrand

Student Dashboard Interface

An imaginary university portal built for student interaction. The dashboard features an interactive sidebar and accessible sections for academic activities
